

Physician Relocation Specialists

At Restaino & Associates, our experienced relocation team is dedicated to providing relocation assistance that is customized to suit the unique needs of relocating physicians, doctors, residents, hospital executives, other medical professionals, and their families moving the Madison area. Our team of experts, working collectively with relocating physicians and their families, can assist in relocation whether it is across state, or across country. We will work hard to ensure the entire relocation process is as smooth and stress-free as possible.

We know that as physicians, your busy schedules are not always well-aligned with a “typical” 8-5 work day. Our relocation team prides itself on having 24/7 availability, and we ensure a quick response.

Our “concierge style” relocation services will provide a comprehensive collection of resources that will help ease the stress during relocation. We introduce relocating physicians to respected professionals who have experience & products fit to serve their particular needs. We can introduce you to mortgage lenders, financial planners, investment managers, and movers, many of which have specialized programs made to suit the particular needs of physicians.

A knowledgeable team with over 35 years of combined relocation experience!

We provide:

- A Community Welcome Packet
- Area Orientation Tour
- Introduction to public, private & parochial schools
- Temporary Housing Assistance
- Rental Assistance
- International Services
- Home Finding & Home Sale Assistance
- Concierge Service Providers
- Discounted rates from moving & storage providers
- Access to mortgage lenders who offer Physician loan
